Fees and conditions for granting image usage rights

Please note the following general terms and conditions for using images:

- The fees listed refer to non-recurring usage rights within the defined scope of use.
- Fees are listed in euros and in all cases refer to one image only.
- Picture credits are categorically required for each image.
- When using images which involve personality rights, artistic copyright, trademark rights, and other third-party rights, these permissions must be sought separately.
- Digital data must be deleted after usage. Users may only store this data by special agreement.
- Additional administrative fees may be charged for images which have not yet been digitalised or for image files which have already been digitalised but are not yet available in the resolution required for the planned usage. Depending on the intended purpose, a decision must be made about whether the digitalisation is carried out internally or externally.
- The image files which have been supplied may not be manipulated or edited in any way.
- Permission to use material is only granted after both parties have signed an agreement.
- Service costs are not included in the usage fees. These will be subject to a general administrative fee of 10 euros per inquiry.
